

LET'S MOBILIZE!

A SOLAR ENERGY FOUNDATION JOINT-RELIEF EFFORT

On November 9, 2013, the Philippines was struck by one of the strongest typhoons in recorded history, taking thousands of lives, forcing 800,000 to flee their homes, and affecting a total 4.3 million people across 270 towns and cities. In Tacloban City alone, Super Typhoon Haiyan claimed an estimated **10,000 lives**, leaving nearly all homes destroyed in its tracks.

For those who need it most, power and communications have been wiped out. These are essential tools to bring people to safety, access critical information & navigate disaster. As the sun sets & night falls, darkness becomes an isolating threat.

We want to ensure **no one is left in the dark.**

The Solar Energy Foundation Philippines is mobilizing a joint relief effort with on-the-ground rescue in the areas hit hardest by the typhoon by providing access to light, energy, and communications starting in Tacloban, Ormoc, Iloilo, Roxas City, and Busuanga. Your donations will allow us to immediately deploy Solar Lanterns with mobile phone chargers to our partner organizations, including Red Cross, Peace and Equity Foundation, Taos Puso Foundation, Life Bank Foundation, Iloilo-CODE, CCT, and CARD.

Every **P2000 (\$50)** deploys one lamp to on-the-ground **rescue & relief.**
