

BALTIC MIL SUMMIT

The Dark
Side
of Media
and Information
Literacy

Register! Baltic MIL Summit: The Dark Side of Media and Information Literacy

Virtual event

On November 26-27th 13:00-16:30 EET join us in the first Baltic MIL Summit which this year will take place online. In the event, we will be focusing on issues which are not usually in the spotlight of MIL topics, such as hate-speech, cyber-security and safety of the internet.

In this event, you will have a chance to:

- Talk to experts from different countries about important yet rarely discussed MIL topics;
- Learn practical know-how for your future work with MIL;
- Participate in lively exchange and cross-border networking;
- Contribute to strengthening the joint coordination of MIL activities and other initiatives that work with countering disinformation.

The event will be held in English and translated into Lithuanian, Latvian, Estonian and Russian languages.

The programme for the event will be published soon. Follow the [event Facebook page](#) and receive it first! If you would like to get notified by email, register for the event by following [this link](#). Participant number is limited.

The Summit is organised by Knowledge Economy Forum and DW Akademie and is funded by the Foreign Office of the Federal Republic of Germany.
